SUNNY STARTERS

THURSDAYS 10:30AM – 11:30AM

A community program specifically designed and developed for Pre-Prep aged children by Sunnybank Primary in conjunction with Sunnybank State High School.

The Sunny Starters Pre-Prep program is a set of strong teaching and learning strategies aligned with the **3a — Abecedarian Approach Australia**.
The approach consists of four elements:

- **Conversational Reading**
- **Enriched Caregiving**
- **Language Games**
- **Language Priority**

SUNNY STARTERS is a wonderful free program for 4 & 5 year old children to come to our school every Thursday for one hour, and participate in a range of activities aimed at developing their oral language and early literacy skills. Several of our local childcare centres bring their Pre-Prep students to Sunny Starters each Thursday. The students are supported by the wonderful students from Sunnybank State High School who come along to read and talk with the children. This is a fantastic way of starting to get your child comfortable with coming along to school. If you would like to know more about Sunny Starters or have a child you would like to bring along, please contact the school office. Enrolment forms are available from our school website: www.sunnybankss.eq.edu.au.

Physical Health & Wellbeing
